

We bring Purpose & People together !

What is VDOSH?

VDOSH is a different type of venture capital firm. Designed for individual entrepreneurs, we make connection to hundreds of investors who were previously not available; for individual investors, we make this key asset class available to millions of individuals who previously haven't had access to a high-quality, diversified venture portfolio.

VDOSH includes funds for:

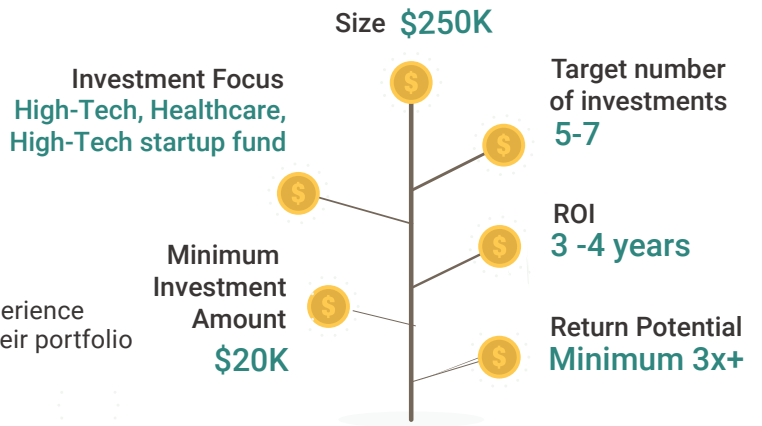

- Accredited investors seeking a complete "one-click" venture portfolio
- Accredited investors wanting broader "index-like" exposure to the asset class through our Total Access Fund
- Accredited investors interested in Focused Funds designed to supplement existing VC investments.

We are already an active venture firms in USA, and our family of funds is growing. We plan on continuing to add Diversified and Focused Funds to better address the varied investing interests of our investor base.

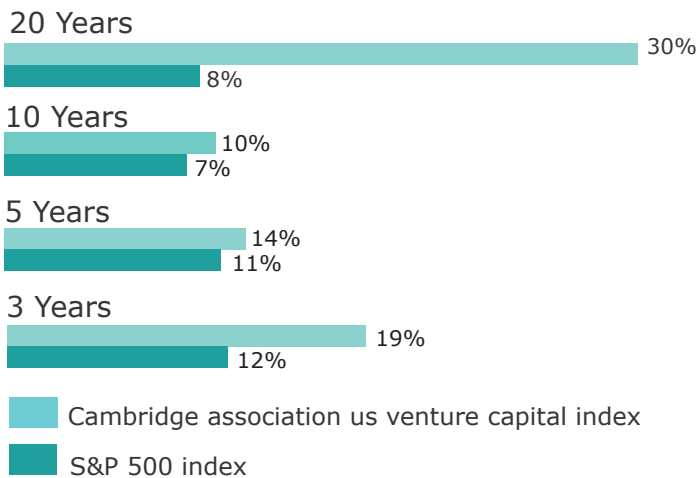

What is VDOSH Venture Fund – I ?

The smartest, simplest way for accredited investors to diversify their investment and add venture capital to their portfolio. We are also...

- A full-time investment team
- An Investment Committee with over 100 years of investing experience
- The only fund of its kind for accredited investors to diversify their portfolio
- Private and for-profit fund

VC Outperforms the S&P

Cambridge association us venture capital index are selected benchmark statistics march 2016
